## 1. Introduction To This Guide

You don't have to carve time out of your busy schedule to call the ISP business office to change your password or to check your account information.

Save time and gain control over important account settings with the AdminTool! With this easy to use Web tool, you can make the changes you need to your account, set Spam filtering, and have your changes take effect immediately—no waiting.

Follow the quick and easy instructions in this handy reference to get started.

This manual provides step-by-step instructions to perform these tasks:

- Change password (section 3)
- Download popup-blocking software
- Set Auto-reply (section 6)
- Set FrontPage access (section 7)
- Forward e-mail to other accounts (section 8)
- Delete unopened e-mail from your account (section 9)
- Review account information (section 10)

To set Spam Filtering, please see the guide *Spam Filtering from Your ISP*.

## 2. Login To The Admintool

- Type **admintool.scwildblue.com** into the address bar of your Web browser and press the **Enter** key on your keyboard. The illustration below uses the address for **admintool.trueband.net** (Figure 1).

Figure 1.

- Enter your **User Name** and **Password** in the appropriate fields on the login page and click the **Log In** button (Figure 2). Your User Name is the same as your Login Id.

**Note: User Name and Password are case-sensitive. Please make sure that you enter the User Name and Password exactly as when the account was created (or last modified).**

Figure 2.

**Note: If you have lost your Password, please call your ISP business office during normal business hours.**

After successful login, the AdminTool homepage appears (Figure 3).

Figure 3

Menu items are listed on the left of the screen (Figure 4):

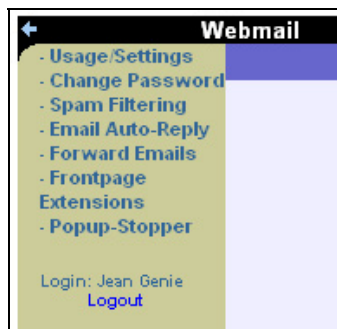

Figure 4.

**Return to login screen if inactive for two (2) hours.**

To provide added security, the AdminTool returns to the login page if you have not worked in the tool for two hours. When you try to work in the AdminTool after having left it for two hours, you will receive the message that the session “has timed out” (Figure 3). To work in the application further, the user must login again.

Figure 5

## Logout of the AdminTool

The AdminTool provides two ways to logoff: leave the system or return to the Login prompt.

To leave the AdminTool, select the “X” in the upper-right of your Web browser.

To return to the Login prompt (Figure 2), select **Logout** from the menu on the left of the screen (Figure 5).

## 3. Change Your Password

Select **Change Password** from the menu to access the **Change Password** screen (Figure 6).

The screenshot shows the TrueBand Webmail interface. On the left is a navigation menu with options: Usage Settings, Change Password, Spam Filtering, Email Auto-Reply, Forward Emails, Frontpage, Extensions, and Popup-Stopper. Below the menu are links for Login: Jean Genie and Logout. The main content area is titled 'Change Password' and contains the text: 'You can change your password here. Your password change will affect all of your services including, Dial, E-mail, and Web.' Below this text are two input fields: 'Change my password to:' and 'Password Verify:', both containing the text 'hunkydory'. A 'Next >>>' button is located at the bottom right of the form.

Figure 6

Your current password appears in the field. To change your password:

- Enter a new password into the **Change my password to** field
- Enter the same new password in the **Password Verify** field
- Click the **Next** button

At the **Change Settings – Verify** screen (Figure 6), make sure the password is correct.

**Note: After changing your password, you will be prompted to login using the new password before you can perform other tasks in the AdminTool.**

**Change Settings - Verify**

Verify that the settings below are correct, then click on "Make Changes".

If the settings are incorrect, click on your browsers "back" button to make changes.

If you are changing your password, you will be prompted to re-login with your new user name and password as soon as you try doing any other functions in the admintool.

<b>Password:</b>	hunkydory
<b>FrontPage Access:</b>	On
<b>Site Creator Template Access:</b>	Off
<b>Spam Filtering Type:</b>	Spam Defense with Friends Circle
<b>-Detection:</b>	Medium - 90% Spam Detected
<b>-Blocking:</b>	Block most Spam
<b>-When spam is detected:</b>	Set your Subject Flag to: <b>**Possible_Spam**</b>
<b>Forward all e-mails to:</b>	
<b>Auto-Reply:</b>	On

Figure 7

If you need to edit your changes, select **Change Password** from the menu on the left. To accept your new password, click the **Make Changes** button. The **Change Settings – Create** screen will appear (Figure 7).

Change Settings - Create

## 4. Download Pop-up Stopper

We know how distracting it can be to have annoying Web advertisements pop up while you are surfing the Internet.

As your ISP, we want to help you have a quality Internet experience by reducing annoyances like pop-up and pop-under advertisements.

Our robust pop-up stopping software provides advanced ad-blocking technology:

- Block pop-up and pop-under ads, including X10 and Casino windows
- Allow pop-up windows from sites YOU choose
- Preserve bandwidth by stopping pop-ups before they load!
- View the number of pop-ups blocked, and from which site!
- Play a sound when a pop-up is blocked

Take advantage of this great service by downloading the software and follow the simple directions to install it on your computer.

To download the pop-up stopper, select Pop-up Stopper from the menu of the left of the screen.

Read the directions on the **Pop-up Stopper** screen before clicking the **Download** button to begin the download process (Figure 10).

**Note: The Pop-up Stopper is available only for  
Windows Internet Explorer.**

**Figure 9**

Depending on the operating system you have installed on your computer, you may receive a message like the one below (Figure 11). Click the option to **Save** the program to your computer.

Figure 10

Logout of the AdminTool and close all programs, including your Internet connection, to install the program.

### Install the Pop-Up Stopper

When download is complete, close all other applications and double-click the Pop-Up Stopper setup icon, or, select **Run** from the **Start** menu, browse to the desktop, and select **popupstopper**.

Follow installation instructions (Figure 12).

Figure 11

### Register Pop-Up Stopper

When installation is complete, the Pop-Up Stopper Setup Wizard opens (Figure 13). Follow the setup wizard instructions

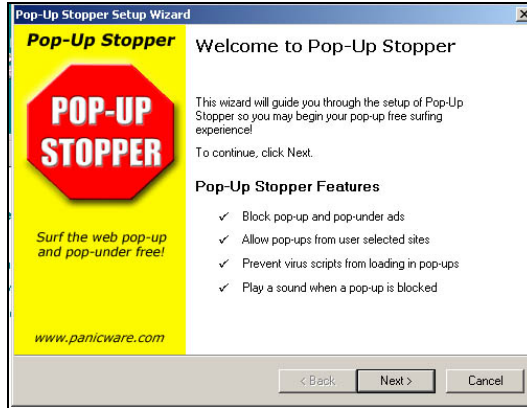

Figure 12

Provide your e-mail address to receive the activation code (Figure 13).

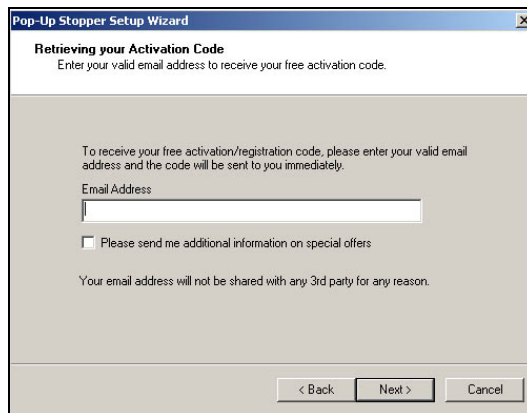

Figure 13

After providing your e-mail address, the registration code will be e-mailed to you. Enter the registration code in the fields provided and click Next to complete setup. When setup is complete, a Web browser automatically opens to a “Welcome to Pop-Up Stopper” Web page. This page answers questions about using Pop-Up Stopper (Figure 15).

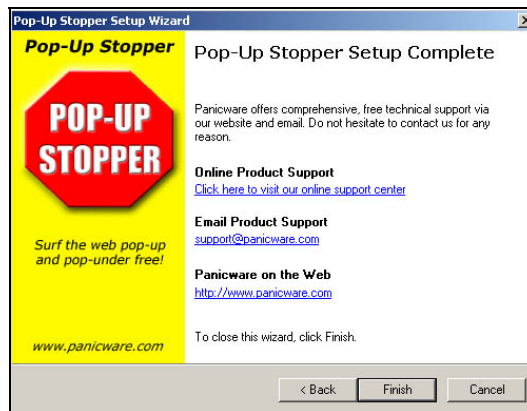

Figure 14

## Pop-Up Stopper tool bar appears

When installation is complete, the Pop-up Stopper tool bar should appear on your browser (Figure 16).

Figure 15

If the tool bar does not appear, place your mouse in a gray area of the Web browser and right click to reveal the selected tool bars. Make sure the tool bar for “Panicware Pop-Up Stopper” is selected.

## 5. Set Auto-Reply

Respond to e-mail automatically, even when you’re not online! The Auto-reply feature is especially useful when you are on vacation or unable to access e-mail for a long period of time.

When E-mail Auto-Reply is on, your auto-reply message will be sent automatically to anyone who e-mails you.

To insert an Auto-reply message,

- Log on to the AdminTool
- Select **E-mail Auto-Reply** from the menu on the left side of the screen
- Default text is provided in the field (Figure 17). If you want to change it, enter your message in the field.

Figure 16

- To turn Auto-reply on, select the “**On**” radial button
- Click the **Next** button
- Verify that Auto-reply is on by reviewing the settings on the **Change Settings - Verify** screen (Figure 18)
  - If settings are correct, click the **Make Changes** button
  - If settings are incorrect, click **E-mail Auto-Reply** on the menu to make the desired changes.

Change Settings - Verify	
Verify that the settings below are correct, then click on "Make Changes".	
If the settings are incorrect, click on your browsers "back" button to make changes.	
<i>If you are changing your password, you will be prompted to re-login with your new user name and password as soon as you try doing any other functions in the admin tool.</i>	
Password:	hunkydory
FrontPage Access:	On
Site Creator Template Access:	Off
Spam Filtering Type:	Spam Defense with Friends Circle
-Detection:	Medium - 90% Spam Detected
-Blocking:	Block most Spam
-When spam is detected:	Set your Subject Flag to: **Possible_Spam**
Forward all e-mails to:	
Auto-Reply:	On
<input type="button" value="Make Changes"/>	

Figure 17

## 6. Set FrontPage Access

Your ISP supports Microsoft FrontPage (98 and 2000) for making personal Web pages. To set FrontPage Access, select **FrontPage Extensions** from the menu on the left of the screen to access FrontPage Extensions screen (Figure 19).

**Frontpage Extensions**

You can use Microsoft FrontPage 98/2000 Extensions with your vanity web page. To enable FrontPage support, make sure the following field is set to "On". To repair FrontPage Extensions, leave the following field to "On", and complete "Change Settings".

FrontPage Access:  ▼

To publish your web, set the location to: <http://users.trueband.net/dbowie>

Figure 18.

Activating FrontPage Access will use approximately 3.5 megabytes (MBs) of your Web page space allotment.

To activate FrontPage access,

- Select "On" from the dropdown menu
- Click the **Next** button
- Verify settings by reviewing the **Change Settings – Create** screen (Figure 7).

## 7. Forward E-Mail To Other Accounts

You may decide to forward the e-mail you receive from this account to another account so that all of your e-mail comes to one centralized location. To forward e-mail from this account to other e-mail accounts, select **Forward E-mails** from the menu on the left of the screen to access the **Forward E-mails** screen (Figure 19).

**Forward Emails**

You can have your e-mail forwarded to a different e-mail account, for example: dbowie@trueband.net can be forwarded to dbowie@yahoo.com, or dbowie@hotmail.com. If you don't want your e-mail forwarded to a different account, just leave the following field blank. Separate multiple e-mail addresses with a ";"

Forward my e-mails to:

Figure 19

To forward your e-mail to multiple accounts; separate each e-mail addresses with a semicolon (;).

To forward your e-mail to other accounts:

- Enter the e-mail addresses to which you would like your e-mail forwarded in the field.
- Click the **Next** button
- Verify your settings by reviewing the **Change Settings- Create** screen (Figure 18)
  - If settings are correct, click the **Make Changes** button
  - If settings are incorrect, click **Forward E-mails** on the menu to make the desired changes.

## 8. Delete Accumulated E-Mail

From the AdminTool, you can delete e-mail that has accumulated in your e-mail in-box. This powerful feature can save you time—if you know that you don’t want to save any of the e-mail that has piled up in your account.

Be careful—there is no retrieval function.

To delete accumulated e-mail,

- Select the **Usage/Settings** menu item from the left of the screen
- From the **Usage/Settings** screen, scroll to the Usage section and select the amount of e-mail you would like to delete from the dropdown menu (Figure 20).
- Click the **Delete E-mails** button

**Note: Once you delete e-mail, you cannot recover it!**

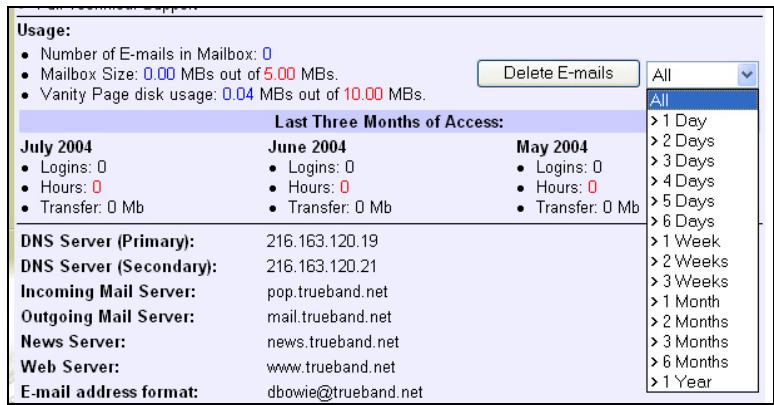

Figure 20

Before accepting the deletion, check on the message prompt whether the amount of e-mail to delete displays in the prompt. In the example below, the amount of accumulated

e-mail the user has selected to delete is “All.” To accept and delete the e-mail, click **OK**. To cancel the deletion and keep the e-mail, click **Cancel**.

Figure 21.

After processing the deletion request, the AdminTool returns the user to the **Usage/Settings** screen.

## 9. Review Usage and Settings

On occasion, it is a good idea to review your account information, usage, and settings to make certain that all information is current.

To do so, select the **Usage/Settings** menu option from the left of the screen (Figure 4).

Review the following areas of the Usages/Settings screen and follow the instructions provided if changes are required:

<b>User Name and Password</b>	If you would like to change your password, please refer to the <b>Change Your Password</b> section of this guide.
<b>Address</b>	If the recorded address is different from you current one, please call the ISP business office to update your account.
<b>Telephone</b>	If the recorded telephone number is different from you current one, please call the ISP business office to update your account.
<b>E-mail Access</b>	To increase the size of your e-mail box, please call the ISP business office. Charges may apply.  To set Spam filtering, refer to the guide <b>Spam Filtering from Your ISP</b> .  To set auto-reply, please refer to <b>Set Auto-Reply</b> in this guide.
<b>Web page Access</b>	To increase your Web space, please call the ISP business office. Charges may apply.  To use FrontPage to create your personal Web page, turn FrontPage Access <b>On</b> . To do so, refer to <b>Set FrontPage Access</b> in this guide.  To use Site Creator templates to create your Web page, call the ISP business office. Charges may apply.
<b>Usage</b>	Check mailbox size. If you are near capacity for e-mail space, you may need to delete accumulated e-mail. See <b>Delete Accumulated E-mail</b> in this guide.  To increase your Web space, please call the ISP business office. Charges may apply.  Check usage for the last three months. This report provides a summary of your online activity, including the number of times you have logged on, hours spent online, and amount of material transferred within the month.

## 10. Print or e-mail account information

Keep a copy of your account information for your records:

- **Print:** Click the Print button in the upper right of the screen. Follow the directions for printing to your printer.
- **E-mail:** Click the E-mail button in the upper right of the screen to access the **View User – User Data Listing** screen (Figure 8). Enter the address to which you want to e-mail your account information. Enter any comments in the Comments field. To send, click the **E-mail Subscriber Data** button.

**View User - User Data Listing**

Email to:    
(separate multiple addresses with ";")
