A Touchstone Energy® Cooperative 

News Flash

March - April
2018

JOIN US AT MEMBER EVENTS THIS SPRING

This spring, come see the many ways your cooperative powers your community. Join us at your local office for information, food and fun. The meeting will include time to “touch a truck,” so bring along the kids.

Events will take place in five locations so register for the one most convenient for you. Meetings begin at 5:30 p.m.

EVENTS

April 19: Hillsboro office

April 23: Lancaster office

April 24: Canal Winchester office

April 25: Circleville office

May 3: Barnesville office

Register online at www.southcentralpower.com > Community > 2018 Member Meetings or call us at 800-282-5064. Please indicate which meeting you will attend and the number of guests.

RESERVE SOLAR PANELS TODAY

The power of the sun has arrived at South Central Power! All 1,962 OurSolar panels have been installed on four acres at Rock Mill Corporate Park in Lancaster and are now producing energy. You can track energy production on the OurSolar section of our website.

You now can reserve the output of panels at www.southcentralpower.com/solarRSVP! South Central will measure the carbon-neutral energy produced by the panels every month and calculate it into your bill. Based on recent generation and transmission costs, the cost per panel is about 57 cents per month.

Thirty panels generate about enough to power the energy needs of a typical household. See the RSVP form for help with determining the number of panels you may need to power your location. The output of solar panels is being made available on a first come, first served basis.

Members like the benefits of purchasing power from the OurSolar array. First, members can take advantage of renewable energy without the upfront expense of putting solar panels on their home and the ongoing out-of-pocket maintenance expense. Second, members who live in apartments can't put up solar panels at all, so the program allows them to "be green." Third, members want to reduce their carbon footprint in the most cost-efficient way possible. OurSolar fulfills all those reasons.

All subscribing members will be invited to the OurSolar dedication ceremony in April.

Contact the cooperative at 800-282-5064 if you have any questions.
