Member meetings this spring!

Join us at each of our five offices this April and May for information, food and fun at our member meetings. We'll have fun activities for kids, including the opportunity to "touch a bucket truck" and other co-op vehicles.

You'll learn all the ways South Central Power and its employees -- on behalf of our members -- is the energy of our communities.

Register online at www.southcentralpower.com > Community > 2018 Member Meetings or call us at 800-282-5064. Please indicate which meeting you will attend and the number of guests.

Be sure to bring the ticket on the reverse side and bring along as many guests as you like!
