

KEEP YOUR CONTACT INFORMATION UPDATED

It's important to keep your contact information updated with South Central Power. One of the main reasons is to receive messages about planned outages, pole inspections or other scheduled system maintenance.

You'll find that it's easy to update your information on our app as well as on the My Account section of our website.

On the app, log in and click on "Settings" then "Manage Contact Information." There you can add an email address and phone number, and enroll in text messages and voice messaging.

On www.southcentralpower.com, click on the red "My Account" button the home page, then log on to the site. Click on "Notifications," then "Manage Contacts" to make changes to your phone number and email address.

2019**

BE PREPARED FOR STORMS

Be ready for fall storms and power outages that could result. The American Red Cross suggests having enough supplies for at least three days and up to two weeks.

Keep these items on hand

Keep on hand: flashlight, battery-powered radio and extra batteries, first aid kit, non-perishable food, can opener, bottled water, medications and blankets.

Stay safe

For safety, it's better to use a flashlight or battery-operated lights instead of candles. Please also keep in mind that it's important to have a back-up plan to move to other accommodations in the event of an extended outage.

Report outages

Report outages in four ways: by texting OUT to 85700 if you have enrolled in Outage Alerts (text SCPOPTIN to 85700 to enroll), on our app (search "South Central" in your app store), on the My Account web page or by calling 800-282-5064.
